

Preparing your slide for Ignition

You can design your slide with any application, such as PowerPoint and Photoshop. The slide should be ideally in landscape format with the aspect ratio similar to A4 paper.

Note: Please include your name of your team and your team members in your poster for the ease of identification.

Once you are done designing your slide, save it as an image file (e.g., JPG, PNG, etc.) so that you can upload it later.

Uploading Your Slide for Ignition

Uploading your slide for Ignition is a two-part process:

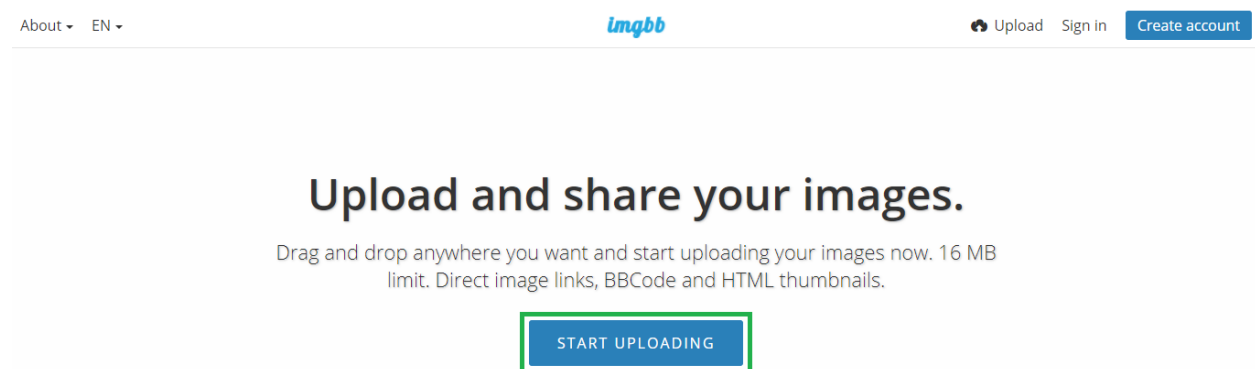

1. Uploading your slide to an image hosting service (or other hosting services), and
2. Providing the link to it on Skylab.

Part 1: Uploading to Image Hosting Service (imgbb)

Note: Using other sites are possible, but for this guide we'll be using imgbb.

Step 1: Go to <https://imgbb.com>

Step 2: Click 'Start Uploading' on the home page.

Step 3: Select the image file of the slide (saved as an image) that you wish to upload, and click 'Open'.

Viewer links ▼

<https://ibb.co/huFAgi>

Step 5: Copy the viewer link from the box at the bottom. Paste the link into a different tab/window.

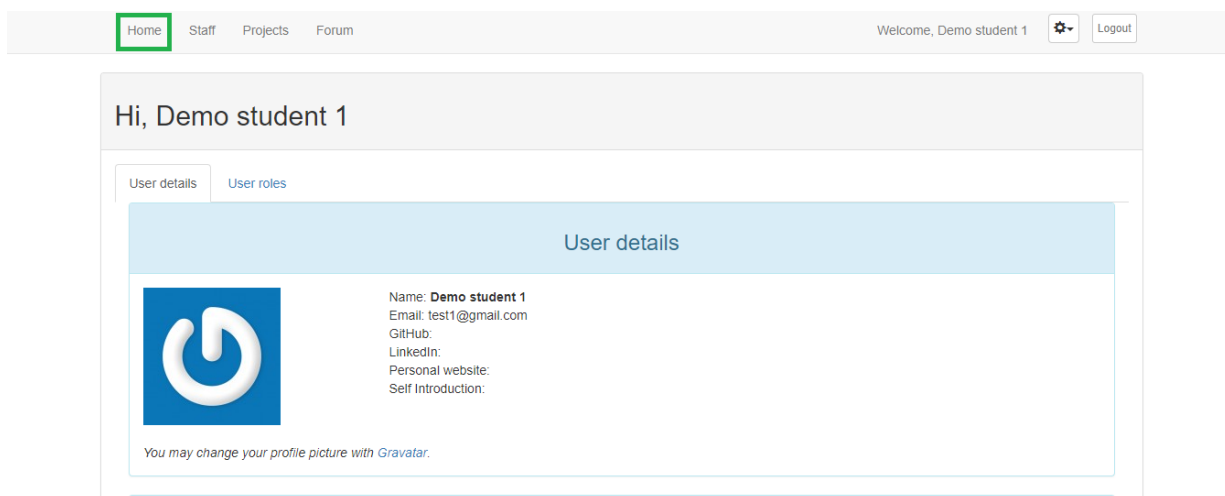

Step 6: Right click the image and click on 'Copy image address' (for Chrome) or 'Copy image location' (for Firefox). Save this link somewhere; this link will be the one that is used for Skylab.

Part 2: Adding Slide Link on Skylab

Step 1: Go to <http://nusskylab-dev.comp.nus.edu.sg/>

Step 2: Log in (via the login button at the top right) if you are not logged in already.

Step 3: Click on 'Home' at the top left. Note that your screen may be different depending on whether you had to go through the log in process or not, but the 'Home' button should be there either way.

Step 4: Click on your team name.

Update Team

The deadline for uploading the slide is 15 May at 2:30pm.

After you are done uploading the slide, you should verify that the uploading is successful by viewing your slide on Skylab, as described in the following section.

Viewing Your Slide on Skylab

Step 1: Click on 'Staff' on the top left of the screen. This should be present regardless of whether you were logged in or not.
